

Build Europe with us!

EU on-line video
competition

Construction is more than just breaking stones – it is science, innovation and art. In the European Union, construction is one of the engines of the economy, providing 20 million direct jobs and generating almost 10% of GDP. There is a future for growth and jobs in the construction sector. It is also an opportunity for you!

Submit a short video showcasing your innovative project, vision, or idea for the construction sector and have your chance to win a smartphone!

BUILD EUROPE WITH US!

The European Commission is organising an on-line video competition to encourage young talents to develop their skills in the construction sector. Construction is a leading sector for employment in the EU, providing 20 million direct jobs and generating almost 10% of the EU GDP. It provides plenty of opportunities!

WHAT CAN YOU OFFER TO THE CONSTRUCTION SECTOR?

Bricks made from recycled materials? Smart devices that allow you to better control energy consumption at home? A new app to calculate the environmental impact of the buildings on your smartphone? On the spot innovative approaches? You name it!

What are your skills? What are your talents? Share them with us! The sector needs you.

CATEGORIES

Two categories of participants can compete. The two most original projects in each category will be awarded a prize.

APPRENTICES (15-20)

If you are between 15 and 20 years old, have participated in an educational project with your class or within your apprenticeship, or simply have a new vision for the construction sector: this is your category!

MASTERS (18-30)

If you are between 18 and 30, a young worker or in your final years of studies, you have an idea or project that can change the way we approach construction: we are waiting for your video!

The competition is open from 10 March 2015 12:00 until 18 May 2015, 22:00
The winners will be announced on 4 June 2015, 12:00
